Experience

SpaceCraft Senior Software Engineer (*Jan. 2017 - Present*)

- Built a suite of microservices (using Kubernetes, Redis, and Node.js) for scheduling and executing miscellaneous tasks, like fetching third-party data, checking DNS propagation, and publishing webhooks
- Abstracted app logging into a single shared library to unify error, request, and debug logs to Bugsnag, BigQuery, and Stackdriver
- Developed integrations with Yext, BirdEye, CallRail, and Google Search Console and built reporting tools to display customer metrics
- Automated repetitive CRM tasks with ActiveCampaign and Postmark to increase efficiency for sales and operations teams
- Active member of the company party-planning committee, helping to organize quarterly offsites and monthly happy hours

Heleo Lead Developer (*Aug. 2015 - Dec. 2016*)

- Architected social media monitoring tools using Node.js, React, MySQL, and Solr on AWS
- Maintained development environments in Vagrant and Chef using Webpack and Babel
- Developed a user-tracking and recommendation service using Neo4j

Spiceworks Front End Web Developer (*Jan. 2015 - July 2015*)

- Managed development of PHP-built front-facing marketing website
- Worked directly with marketers, designers, and salespeople to optimize user acquisition and app downloads
- Continuously iterated rounds of A/B and multivariate tests using Optimizely

Thrillist Media Group Interface Developer (*Apr. 2014 - Jan. 2015*)

- Led an ongoing effort to redesign and enhance a Drupal-based CMS
- Improved and maintained front-end and back-end code for Jackthreads.com, building on top of an in-house e-commerce platform
- Leveraged Backbone, CakePHP, Coffeescript, and SASS to rapidly develop and deploy features and bug fixes

Disney Interactive Associate Software Engineer (*Jan. 2013 - Apr. 2014*)

- Worked closely with editorial and product staff to fully develop unique and engaging editorial features as custom WordPress plugins
- Developed JavaScript and PHP applications utilizing Twitter, Facebook, and Google APIs
- Contributed to a Node- and Redis-powered caching solution to reduce negative effects of social API latency

Education

University of Florida

Bachelor of Arts in English
(2007 - 2011)

Technical Skills

Javascript/Node.js
PHP
MySQL
CSS3/SASS
HTML5
Kubernetes
Google Cloud Platform
React/Redux
GraphQL
NoSQL (CouchDB, MongoDB)
Redis
Docker
Git
AWS
Neo4j
Solr/Elasticsearch
